TURMERIC HERBAL INFUSION

Our traditional spice turmeric, Haldi (Hridra) is known to us since about 5000 years. It is so important a plant that till date some 2473 U.S. patents have been obtained by scientists of the world. Many important chemicals are present in this spice. The group of one of the active compounds are Curcuminoids. Curcuminoids are proven molecules against cancer. Curcuminoids have also been shown to exhibit antioxidant, anti-inflammatory, antiviral, anti-bacterial, antifungal activities and have a potential against various diseases like diabetes, allergies, arthritis, Alzheimer's disease, and other chronic illness. Recently a water soluble polypeptide has been isolated from Turmeric. This is highly effective against oxidative stress related diseases like arthritis, atherosclerosis, cardiovascular diseases, neurodegenerative diseases, cancer, cataract, malaria, bacterial and fungal infectious diseases.

MORINGA - TULSI HERBAL INFUSION

Moringa Oleifera tree also called the "miracle tree" in some countries, and "drumstick tree" in others, is native to India's Himalayan Mountains. Tulsi, Indian holy basil is the queen of herbs' and Ayurveda has mentioned about the numerous health benefits of tulsi. Moringa Tulsi herbal infusion boosts energy, aid in mental clarity, refreshing you to the core. It lowers cholesterol, and prevents blood clots. It also improves stamina and promotes better sleep. It helps in arthritis pain and other painful joint issues through its anti-inflammatory property. The tea also promotes weight loss, and aid in the digestive processes. Some of the vitamins found in Moringa & Tulsi are K, C, and A, along with calcium, potassium. In all, these Plants are thought to provide over 45 different antioxidants and have more than 35 different anti-inflammatory properties. In addition, it provides many essential amino acid, vitamins and minerals.

THE CUROKIND

Welcome to CUROKIND.
